

The Board's statement pursuant to chapter 18, section 4 of the Swedish Companies Act

As the Board proposes that the AGM on 21 March 2018 resolves on a dividend of SEK 6.00 per share, the Board presents the following statement pursuant to chapter 18, section 4 of the Swedish Companies Act.

The nature and scope of the Company's business are set forth in the Company's articles of association and the annual report for the financial year 2017. The annual report for the financial year 2017 sets forth the Company's and the group's financial position as of 31 December 2017. It also sets forth the principles applied with respect to the valuation of the Company's and the group's assets, reservations and liabilities.

According to the annual report for the financial year 2017, the Company's unrestricted equity (available profit and unrestricted reserves) amounts to approximately SEK 5,382 million. As per the balance sheet date, 31 December 2017, the Company's restricted equity amounted to approximately SEK 207 million. The Board has made the assessment that the Company's restricted equity will be intact after payment of the proposed dividend.

The proposed dividend will reduce the Company's equity ratio from approximately 54 percent to approximately 49 percent, and the group's equity ratio from approximately 24 percent to approximately 19 percent, calculated as per 31 December 2017.

The Board is of the opinion that the proposed dividend will not affect the Company's and the group's ability to meet their short and long term payment obligations. Nor is the proposed dividend expected to negatively affect the Company's and the group's ability to make commercially justifiable investments.

In view of the above and considering such other circumstances, which have come to the Board's attention, the Board is of the opinion, based on a comprehensive assessment of the Company's and the group's financial position, that the proposed dividend is justifiable with respect to the requirements imposed by the business' nature, scope and risks in relation to the size of the Company's and the group's equity, as well as the consolidation needs, liquidity and general position of the Company and the group. The Company's and the group's equity would have been lowered with SEK 0 and SEK 0, respectively, should assets and liabilities not have been reported at their fair value pursuant to chapter 4, section 14 a of the Swedish Annual Accounts Act.

The Board therefore considers the proposed dividend to be justifiable with respect to the requirements stipulated pursuant to chapter 17, section 3, paragraph 2 and 3 of the Swedish Companies Act.
